

Dear Friends,

We know that we are behind in regularly communicating to our faithful friends and supporters all that God is doing through Discipleship Network of America. I have finally entered all the addresses from the Christmas comment cards returned to us and Phil has dictated a number of newsletters which I will be sending out as regularly as I can. He wanted to name it by a particular day of the week, but thankfully relented giving me a regular deadline when he saw the terror in my eyes!

Just the other day while I was finishing the final edit on a new book being published by Christian Publications - Horizon Books, *Leaving a Legacy*, amidst a sea of order forms, packing material, and tapes of our new video and audio series the kids and I were sending out, Phil came in peering over the, as yet unfinished, work on the website sitting on my desk and said, "I've got a great idea!" As I lowered my head to my desk, I muttered to myself, "No more great ideas – at least for a few days!"

We are so excited about what the Lord is doing through DNA and look forward to sharing that with you more regularly, as well as encouraging you in other ways. Please let us hear from you. As we shape the way in which we communicate with you, we would cherish your investment of a few minutes to give us your input and feedback. We are here to serve you and encourage your walk with the Lord and your commitment to evangelism and discipleship.

You are dear to us.

With Christ's love,

Susy
